DVD

1. The universe and everything in it was created by God rather than by spontaneous generation and development from one kind into another. (Genesis 1:1)

2. All creation was accomplished in six consecutive literal days - not over millions of years and the earth is thousands (not millions) of years old. (Genesis 1:4)

3. A world-wide, historical flood, caused by **God**, occurred at the time of Noah. (Genesis 7:19-21)

4. The Bible is the inerrant, revealed Word of God to man and is accurate in all areas, including geographical, numerical and scientific. (II Timothy 3:16)

5. Salvation, made necessary by the fall of Adam, comes only through Christ. (John 3:16)
